Wecan Global Co Ltd is a South Korean manufacturer of premium quality rotary hoes & power harrows. All series represent excellent value for money. Wecan Global use the most advanced manufacturing equipment and are dedicated to introducing technology not seen anywhere else in the world. Wecan Global implements have a proven history working reliably in Australian conditions.

You can be confident when purchasing Wecan Global!

- Premium quality Australian made bed forming attachment built by top bed former builder Cameron Hussey Engineering.
- DGW rotary hoe bed formers are fitted with a 150HP four speed Gearbox.
- Heavy duty rotor fitted with heavy duty blades.
- High capacity precision gear drive for a smoother running durable end drive.
- The heavy duty bed forming tail gate is adjustable to your desired bed height. It is designed to float down from your pin locked bed height position so when re-entering the bed it blocks the soil from discharging all over the head land.
- All rotary hoes are supplied with an appropriate Australian approved PTO shaft & slip clutch.
- All Wecan Global rotary hoes feature an oil bath end bearing and multi directional oil seals for optimum bearing protection on both the end bearing and drive bearing.
- Optional A Frame Quick Hitch available as pictured.
- Excellent value for money.
- Two year warranty.
