Wecan Global Co Ltd is a South Korean manufacturer of premium quality rotary hoes & power harrows. All series represent excellent value for money. Wecan Global use the most advanced manufacturing equipment and are dedicated to introducing technology not seen anywhere else in the world. Wecan Global implements have a proven history working reliably in Australian conditions.

You can be confident when purchasing Wecan Global!

- All MGW models are fitted with a 150HP four speed Gearbox. Gears can be removed easily and the gear pattern changed to suit different ground conditions. Wecan Global manufactures their own components including the gearbox & drive resulting in a premium quality product.
- Large diameter double flange rotor fitted with heavy duty blades to suit heavy duty applications.
- All rotary hoes are supplied with an appropriate Australian approved PTO shaft & slip clutch.
- All Wecan Global rotary hoes feature an oil bath end bearing and multi directional oil seals for optimum bearing protection on both the end bearing and drive bearing.
- High capacity precision gear drive for a smoother running durable end drive.
- Excellent value for money.
- Two year warranty.
