

Australian Farming Company

ausfarmingco.com.au

TGW Series

Titan Rotavator

Farmer's dream is ripening on land.

Features of the machine

- High-performance multi gear box
- vibration absorbing upper frame
- Strongest carbon steel made with special materials
- Anti-vibration ploughing spindle
- Heat exchanger gearbox (optional)

Work Features

- Optimal conditions for plant growth
- Unwavering tillage is possible with a balanced array of large flanges
- Stable ploughing is possible by discharging soil evenly and, prevent both overload of tractor and body shaking
